A NEW DISEASE AND AN OLD
REMEDY.

If the buyer is willing to pay any price he is sure to be accommodated, but if he refuses to buy at an exorbitant price he will be served at a reasonable price. If this exceedingly simple remedy were applied it would prove to be far more effective in reducing costs than all penal laws and all exertions of the Government. Action by the public would go at the root of the evil. It would strike at all profiteering from top to bottom.

The manufactured article which the public buys is the final stage in a long process of production. To arrive at the legitimate price the Government would have to begin its investigations with the seed that is planted in the ground and follow it up through numerous evolutions until it has completed its metamorphosis into a commodity on the retailer's shelf.

This is simply impossible. The public must work out its own deliverance and can do it by applying the old remedy of refusing to buy goods for which an exorbitant price is asked. It has been tried more than once, before the era of high prices began and on various occasions since that time, and it has brought good results. This is explained by the economic theory that prices are not made by the seller, but by the purchaser.

BE CAREFUL.

See us before selling your furs, hides, junk, poultry and eggs.

FEBRUARY'S FUNNY FEATURES

February, 1920, is a peculiar month.

February 1 falls on Sunday, as does February 29, the last day of the month.

There will be seven holidays in February—that is, for bankers and others, but for the common workman but five.

There are five Sundays in February and the customary two legal holidays—Abraham Lincoln's Birthday and the anniversary of Geo. Washington's birth.

Such a February has not been experienced since 1860, and there will not be a similar one until 1948, statistical fends declare.

Leap year is the reason.

SOCIAL AND PERSONAL.

Comings and Goings of Our
People Here, There and
Elsewhere.

—Mrs. Gertrude Smoot has returned to her home in Corbin after a visit to her sister, Mrs. William Remington, on Eighth street.

—Mrs. A. B. Chowning has returned to her home in Shelbyville, after a visit to her brother, Charles A. Webber and family, in this city.

—Misses Minerva and Sue Boardman, students at the University of Kentucky, at Lexington, spent the week-end as guest of their parents, Mr. and Mrs. Elmer Boardman, near Paris.

—N. H. Peters, of Cass county, Mo., is visiting the family of J. W. Young, in that vicinity. Mr. Peters, though a native of Bath county, still clings to Bourbon as his "adopted home."

During the absence of her husband, Judge Robert H. Winn, of Mt. Sterling, who is in Shreveport, La., on a ten-days' business mission, Mrs. Winn is a guest of her parents, Mr. and Mrs. Jesse Turney, near Paris.

—The following program was rendered Saturday by the North Middletown Woman's Club, at the meeting held in the club rooms, "The Holy Temple," (art study) Mrs. Calvert Meng; "The Psalms," Mrs. William Talbott; "The Wisdom Literature—Ecclesiastes, and Proverbs," Mrs. John S. Talbott. (Other Personals on Page 5)

SWIFT & CO'S WEEKLY PRO-
DUCE REVIEW.

The fall in the rate of exchange has materially affected the market on food-stuffs and conditions are rather unsettled on produce products.

BUTTER—While receipts are not as heavy as a year ago, indicating a lighter production, there is a large reserve stock in storage, as shown by the figures of stocks in Chicago, New York, Boston and Philadelphia on February 4th, comparison is as follows:

February 4, 1920...28,077,651 lbs.
February 4, 1919...20,420,146 lbs.

Excess...7,657,505 lbs.

It is understood part of this excess is owned by foreign governments, and it is possible they will sell part of their butter in this country. Regular shipments are being made from Denmark and the Argentine, the rate of exchange being favorable to foreign owners.

Butter received from Denmark so far is of very fine quality and is being diverted to the United States on account of the depreciation of the German mark and limit on the selling price in England. The United States markets are slightly lower, although the situation has not yet affected the country prices.

EGGS—Receipts are increasing slowly, but were slightly in excess of requirements and there has been a moderate decline in prices during the week. This is a reasonable condition and further decline may be looked for as receipts becoming heavier.

POULTRY—The high prices prevailing are curtailing consumption and there is generally an easier feeling in the larger markets. If this condition continues, some changes in market prices will probably result.

FIRE DESTROYS BARN.

A ten-acre tobacco barn on the Owingsville and Mt. Sterling pike, and about eight thousand pounds of tobacco, were destroyed by fire. There was \$1,000 insurance on the barn, and none on the tobacco.

BOYS' CHAMPIONSHIP CUPS TO
BE AWARDED.

Cups awarded last year to champions in the Boys' Agricultural Clubs of the State have been called in and the new awards will be made some time this month. It was stated by F. N. Barrett, State leader of Boys' Club work. Cups will be presented to the big club champion, the corn club champion and the poultry club champion. Two other trophies will also be awarded, one for the highest yield of corn to the acre and the other for the greatest profit from an acre of corn.

DOUBLE BEAUTY

OF YOUR HAIR

"Danderine" creates mass
of thick, gleamy waves

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the "Danderine" and draw this through your hair, taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous and so easy to do up. All dust, dirt and excessive oil is removed.

Let Danderine put more life, color, vigor, and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair and help your hair to grow long, thick, strong and beautiful. (adv)

HIGH COST OF TYRANNY

(New York World)

We learn from the American Issue organ of the Anti-Saloon League, that a fund of \$18,500,000 is needed at once to make prohibition effective in the United States, and that \$9,000,000 more can be used to advantage in promoting the doctrine in Latin America and in Europe.

Letting the \$9,000,000 pass, it is noticeable that the sum to be used at home is to be devoted almost in its entirety to agitation. The treasuries of the United States, the States and municipalities, depleted in revenue by prohibition, are to be tapped for law enforcement, while the millions of the league are to be expended for the "education" of a people upon whom total abstinence has been forced without the formality of a vote. Thus having established national prohibition by methods suggesting the dark forces of less favored countries, the Anti-Salooners now find themselves under the necessity of creating a public opinion to sustain them.

Where all this money is to be had it is difficult to say. The league, operating in the name of religion and morality, is the only political organization that ignores the corrupt-practices acts and makes no official returns of its contributions and disbursements. Perhaps, if this secrecy can be persisted in, the \$18,500,000 now demanded will be subscribed by the manufacturers of wood alcohol and the undertakers.

Husband and Wife Both Find Relief
From Their Troubles Through

Trutona.

Owensboro, Ky., Feb. 16.—Additional proof of the unusual merit to be found in Trutona, the Perfect Tonic, comes from Mr. and Mrs. Murray Jones, well-known Owensboro people, who live at 811 Center street. The story of their remarkable relief only adds to the already overwhelming evidence, fast accumulating in favor of Trutona.

"I was suffering from nervousness and severe headaches and Mr. Jones was troubled with rheumatism and constipation," Mrs. Jones said recently. "My husband suffered greatly from pains in his back. The pain in his hips was so bad at times that he could hardly sit down."

"We have been taking Trutona for several days now and we are both greatly improved. I have a much better appetite and sleep well at night, too, because my nerves are in such better condition. I'm not bothered with the headaches so much, either. Trutona has relieved Mr. Jones' rheumatism and constipation. We both think that Trutona is a wonderful medicine."

Trutona is now being introduced and explained in Paris at Varden & Son's Drug Store. (adv)

GENERAL DUNCAN IS TRANSYLVANIA ALUMNUS.

General George B. Duncan, who came to Kentucky during the holidays to visit his brother and other relatives at Lexington, and who made good with the First Division in France, is an alumnus of Transylvania College at Lexington. General Duncan is a son of the late former Mayor of Lexington, Henry T. Duncan, and won his way by his own merit from his college days to the time he won the right to wear a Major General's uniform in the United States army.

Telephone Wires and Trees

The recent sleet storm has proven destructive to both shade trees and telephone wires, and as both are recognized as important factors in the pleasure and comfort of our every day life, proper consideration should be given each, so that neither would prove detrimental to the other.

A number of farmers have expressed their willingness to assist us in furthering in any way possible the restoration of their telephone service, which is being done by the crews of telephone men as speedily as conditions will permit.

We would suggest to both the city and rural property owners that they take advantage of the wires being down in pruning carefully, and sometimes saving their valuable trees and take warning by the ruthless slaying and splitting of large limbs of trees by storms that would have been saved had these trees been given closer attention before.

By systematically clearing the trees of broken and overgrown limbs, etc., the telephone route will be clear for the wires, so that little or no delay will be experienced in reclaiming interrupted service. For doctoring and pruning trees we would refer the owners to articles published in the Lexington Herald, January 27th, page 12, by A. J. Olney, Assistant Professor of Horticulture, University of Kentucky.
